THE WINCHESTER SCHOOL, JEBEL ALI

Date: 26/10/ 2026	**Audience**: KS1 students	**Venue:** Year 1and 2 - Classroom

Title: Digital Citizenship Day

Presenters /Conductors: Teachers of Year 1 and 2

Aims & Objective: Students will understand the importance of using the internet safely and responsibly, and will be able to identify ways to protect themselves and act kindly online.

Summary:

KS1 students celebrated Digital Citizenship Day by learning how to use the internet safely and responsibly. The session began with a short discussion about being a good digital citizen and protecting personal information online. Students shared ideas on how to stay safe online, such as visiting safe websites, keeping passwords private, and being kind when communicating with others. As part of the "Sami Click Safe – A Digital Superhero" activity, children used their creativity to invent their own digital superhero, draw their character, and design special superpowers to protect people online. The activities encouraged students to think critically about their online actions and understand the importance of making smart, safe, and responsible choices on the internet.
