Title: International Sign Language Day

Presenters / Conductors: Students of Year 3

Aims & Objective: To raise awareness about the importance of sign language in the full realization of the human rights of people who are deaf, to promote inclusivity, and to celebrate linguistic and cultural diversity.

Summary: On September 23, 2026, students observed the International Day of Sign Languages with interactive activities. Starting with a retrieval practice on road signs, they explored how sign language protects the rights of the hearing-impaired community. Students discovered that it has its own grammar and vocabulary, varying across countries, and relies on gestures and expressions. The students designed posters, took part in a true/false quiz, practiced finger spelling the English alphabet, and reflected on the importance of inclusivity, empathy, and communication beyond words.
