THE WINCHESTER SCHOOL, JEBEL ALI

Date: 07/10/2026	**Audience:** Year I0 & 11	**Venue:** Face to face

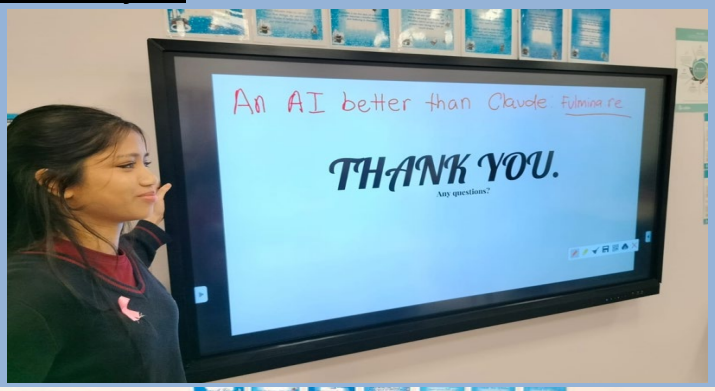
Title: Levelling up with AI

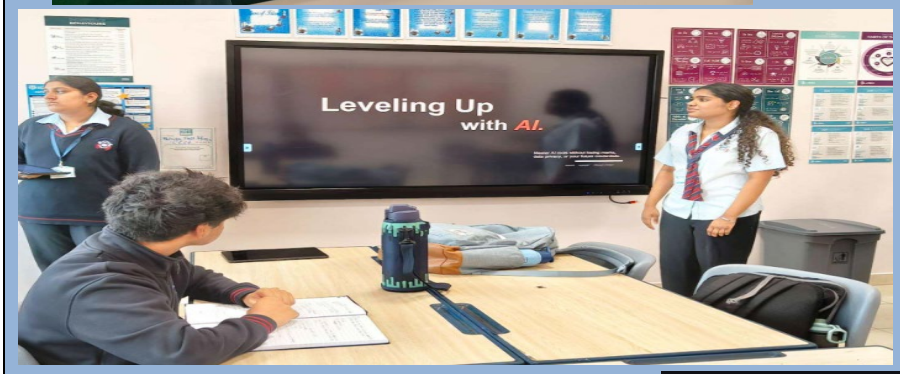
Presenters / Conductors: Rushil and student volunteers from Y10 and Y11

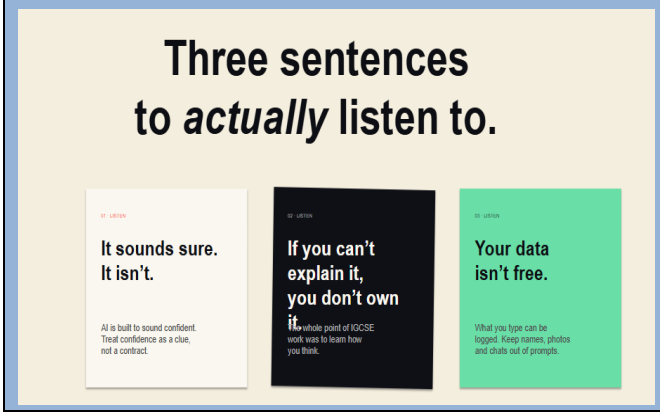
Aims & Objective: To develop students' understanding of Artificial Intelligence (AI) and encourage responsible, ethical and critical use of AI

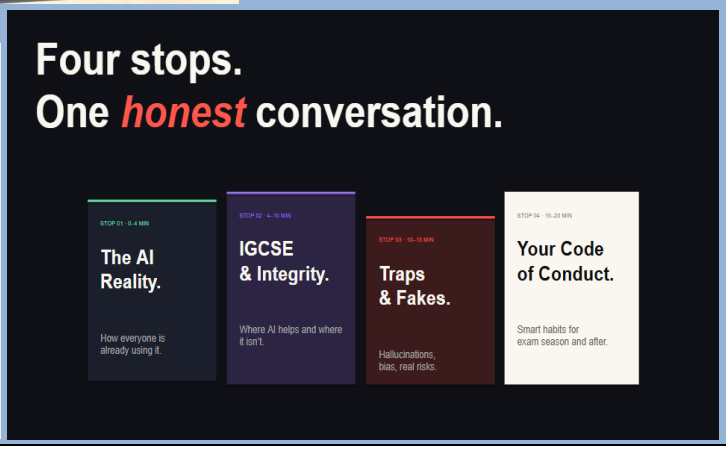
Summary: Levelling Up with AI" aimed to equip students with the knowledge and skills to use AI effectively and responsibly in learning. Students explored different tools, including quiz generators and concept explainers, to support revision, research and understanding. They discussed how to write effective prompts to generate relevant, accurate and useful responses. Key precautions included avoiding coursework copying, inventing sources, sharing personal information and relying on unverified information. Students were reminded never to let AI decide their perspectives or replace their own judgement and critical thinking. The initiative encouraged students to use AI as a learning partner to enhance creativity, efficiency and problem-solving while maintaining academic integrity.

Pictures / Flyers:









Student Feedback:

Levelling Up with AI helped me understand how AI tools can support my learning, research and creativity. I learned that AI can save time and explain difficult concepts, but I must verify information and use it responsibly. – Catherine Don Varghese- 10E

Teacher Feedback:

The initiative encouraged students to explore AI tools and understand their educational benefits. Students developed awareness of responsible AI use, information verification and digital safety.". - Ms. Asha - Form Tutor 10A

Organized by: Rushil and student volunteers from Y10 and Y11
