

Our present Year 9 will go to Year 10 in August 2023 to complete their IGCSE exams in June 2025.

Our aim is to offer our students a broad and balanced curriculum which enables them to become not only successful professionals but also global citizens.

We offer a broad range of strategies to support students moving from Year 9 to Year 10. A comprehensive tutorial system will be in place and the complete support of staff is offered at all times. We would like to invite you to share our success and enjoy the challenges of learning in a stimulating and safe environment. We know that our staff are exceptional and will do everything they can to ensure that students achieve and exceed their potential and we hope that in the future you will look back on your time with us with happy memories and as the first step towards a successful career.

We have our own Library, STEAM Café, ICT facilities, Food and Nutrition Lab, B TEC Lab, Science laboratories and playing fields. We offer a wide range of community services, work experience opportunities, additional learning opportunities, enrichment support, achievement Centre support and internship opportunities etc. The Winchester School offers a unique international learning experience for students. Our participation in Debate Dubai, MUN, Makers day, STEAM Carnival, STEAM Fest, Techno vision, Global Innovation Challenge, DEWA Innovation Challenge, WINMUN, and DIDI enhances innovation, entrepreneurship and enterprise skills in our students. We have extensive career counselling sessions available to help our students pick their right career paths.

Our education programme is structured keeping in mind a 'World-centred' perspective based on the principles of GEMS core values: 'Leading through Innovation, Pursuing Excellence, Growing by Learning, and Global Citizenship.'

STUDENT TESTIMONIALS

Every school can provide opportunities, but Key Stage 4 has gone Above and Beyond in delivering these in-depth and multitude in almost every area of interest. I am Saarah Jaleel in Year 11 and KS4 has really changed the definition of extracurricular within to co-curricular as it is no longer something to complement your education but the foundation of learning. With the introduction of ENP (Enrichment Program), the number of students who engaged in helping the school community significantly increased.

For outer school activities, I have been able to participate in MUNs, the Debate League, NASA Space App's Hackathon, Olympiads for STEM subjects and Duke of Edinburgh. But surely no matter what your spark is, you will find an opportunity to hone your skills for it in this key stage. KS4 allowing students to establish independence, with their motto of the initiative has played a key role in this. For now, if you have an idea for a new initiative, you can implement it. Therefore, if you have something truly novel you want to create, the KS4 team will truly support you.

The scope for interschool co-curricular opportunities is also extremely immense which gave me the opportunity to Volunteer with FS kids, engage in the Mentee and Mentorship program and be a part of the STEM hub. From teaching younger kids after school about chemistry and Maths, which is considered outside of the IGCSE curriculum to being a student mentor. I have been able to help develop a newfound interest in science for younger students. The environment feels genuinely enriched, where you can see fellow students busy working on their own projects or preparing for out-of-school competitions during their free time which really adds to the motivation.

A great example of the support I received from the KS4 team regarding my self-study subjects. I had believed that I missed the opportunity to take English Literature as I did not opt for the accelerated option last year. However, with the help of Ms. Amber (HOK), Ms. Jane & Ms. Delma (HOYs), I was able to do the subject through the school and was allowed to write the Premocks and Mocks for the examination. Key Stage 4 has played an extremely crucial part in my well-being and development as a global citizen, a world leader and one who is willing to push themselves to their limit. So, to that, I would like to say thank you.

-Saarah Jaleel, 11C

My time in KS4 has been nothing but a positive and uplifting experience. Once I entered year 10 I was overwhelmed by the choices and walls being opened up. For the first time ever, I had chosen what I wanted to study, and I also had many more extracurriculars and exams looming. Without the thoughtful and helpful guidance of the teachers and heads of year, I would have been lost.

However, that is not the case. I, Adham Elmallah, am a successful student today. While I should not disregard my own effort, I believe most of my success stems from the help and hard work my teachers have put into building a healthy environment in which I could grow beyond the walls which I had built for myself.

In the years between 7-9 I participated in only 3 extracurriculars and did not make it very far out of my fear of failure. However, in the past year alone I have participated in over 10 various extracurricular activities ranging from ICT competitions, Business design challenges, and literary challenges.

Some friends and I began holding regular mock-trials for the first time in the Winchester school under the name of the winch literary trials. We also competed in the international young tycoon's business challenge and achieved a top 5% ranking. I am also currently participating in the IOS design challenge founded by the UAE ministry for tolerance and coexistence. I am also currently a mentor for the first Lego league, teaching primary and secondary students the fundamentals of design and robotics to compete in the upcoming competition. None of this would have been possible without the wonderful and equal opportunities provided to us all by teachers who truly care about their students.

I am also thankful for the opportunity I received in year 10 to be a part of both English accelerated and maths accelerated programs, which provide us with the opportunity to fast track both subjects and gain an additional subject. I have also managed to maintain pace with my regular subjects, working hard with friends.

The skillful teachers, the helpful leaders, and inspirational opportunities allowing truly anybody who is bold and brave enough to create something is what underlies the KS4 and in reality, the entirety of the Winchester school.

-Adham Elmallah, 11A

The transition from KS3 to KS4 is humungous as students start to prepare for their international IGCSE examinations. However, the KS4 team has made this transition less stressful and more informative by guiding us in unique and helpful ways.

For instance, conducting multiple assemblies on the importance of IGCSEs, rules and regulations during the examination, decorum to be maintained in the examination hall, briefing the IGCSE subjects, career sessions, provision of accelerated programs for Maths and English. KS4 team trains us for our IGCSE's by conducting pre mock and mock examinations, giving students an early experience and idea about the flow and process during the actual examinations. Furthermore, introducing Enrichment Program (ENP) lessons gave students ample of time to consistently revise and study for their IGCSE's. Moreover, the KS4 teachers had scheduled engaging sessions with 6th form students, who are best suited for giving us tips, do's and don'ts for IGCSE's.

As students to achieve outstanding results, we are always welcomed to utilize our free lessons for revision. In addition, practicing past papers has been extremely helpful for all examinations, as we students get a gist of how the actual paper will look like. Past papers are also practiced during lessons, with teachers providing us with spontaneous feedback, which are helpful and important to note down.

Lastly, a big shout out to Ms Amber (HOK), Ms Delma (HOY) and Ms Jane (HOY) for providing the support, encouragement, and confidence for being successful in completing challenges.

-Hiya Chopra, 11G

My name is Manu Krishna Subash of year 11-B, and I will talking about how the Winchester School, has helped me and my peers in preparations for the IGCSE examinations.

At the Winchester School - Jebel Ali, the opportunities for enhancing your skills and learning abilities are numerous. The teachers are all very skilled in handling the class and they constantly give us, the students, practice work to improve our problem-solving skills. I am also very much encouraged to practice timebound past papers to develop the speed or my writing, and to get me familiarized with the IGCSE questions. Our teachers also fully utilize online platforms such as PHOENIX Classroom, to upload past papers and reading materials that help deepen our knowledge on the subject and make it easier to practice questions, Google Classroom, to make it easier for us to communicate with them to clear our doubts over the weekend, Quizizz and Kahoot, to make the lessons more interactive and exciting.

There have also been after school support lessons that are conducted to allow us to get more revision for the exam. In these support lessons we can work on previous exam questions, with our teachers present to help us with any of our doubts and make us understand the topic more thoroughly. I personally have found that these lessons are very helpful in preparing for the examination and my peers agree with me. Recently our ENP lessons have also been utilized to be more productive and help us in our practice for the final examination by using them as a time to revisit math concepts that were previously done, and it acts as a support lesson for us.

Various tools have also been shared with the students by the teachers, things ranging from small tips as to help answer and interpret questions better, to teaching us how analyze the examiner's report and make good use of it.

- Manu Krishna Subash, 11B

Key Stage 4 is a considerable phase where students learn to be independent, resourceful and ambitious. It highlights a major transformation in one's development and is where students begin to take responsibility for their future and become aware of the world around them.

At Winchester, teachers and staff create an enriching environment to prepare students for the real world by improving, adapting and inspiring them to achieve their targets. The staff at Key Stage 4 encourage students to reach their maximum potential and engage in a variety of activities.

Key Stage 4 is when students study and do the IGCSE exams that determine possible career paths and provide them with accredited international academic certification crucial to do A-Levels, university or other post-16 paths. These examinations have immense importance in our schooling system and are recognized all over the world. The Winchester School supports a variety of subjects with flexible options and a range of streams. Students are not restricted to a fixed structure when it comes to choosing their options and can select a variety of subjects from the sciences, humanities, arts and commerce.

Teachers create a positive and sustainable learning environment in the classroom – working with the syllabus to provide a productive educational experience for each student. There are several mock examinations that students take to get used to working under exam conditions with pupils and teachers collaborating for corrective action.

Key Stage 4 also encourages students to participate in a diverse range of extra-curricular activities. From leadership roles to competitions outside school, we are continually open to a wide range of opportunities that we can undertake depending on their interests and abilities. Students establish initiatives, developing their 21st century skills and their problem-solving abilities. The newly introduced volunteering program is a fantastic opportunity for students to build soft skills.

Well-being is prioritized in Key Stage 4. Career counsellors help students plan out and research their careers as well as select possible colleges. To manage stress, school life and personal problems, students can approach guidance counsellors for advice. Assemblies are held, often by students, to spread awareness about well-being, career building and goals. Moral Education lessons center around self-awareness and awareness of the communities we reside in, applying good values in our everyday lives.

Key Stage 4 is an essential phase in student life. At Winchester, we are empowered to achieve our goals and reach new heights.

-Janelle Dmello 11B

Year 9 going to Year 10 Options Selection 2023-25

Dear Parents,

As you are aware, it is time for your child to choose subjects for the IGCSE program. The choice of these subjects will be significant in determining the educational future of your child. The process of selection of the right subjects is very crucial and has far-reaching consequences.

Please see below new guidelines from Ministerial resolution No (883). Article Six.

- Secondary school certificates from Private Schools applying the British System shall be equivalenced to the general secondary certificate, without specifying the courses, in accordance with the following general conditions:
- Arabic is compulsory for all Arab students till Year 13 and for all Non-Arab students till Year 10.
- The student shall complete the twelfth grade or equivalent (Year 13).
- The student shall pass five (5) subjects in the general level courses (IGCSE or GCSE) in one of the success grades (A*, A, B, C, D), or (3, 4,5, 6, 7, 8, 9), including the following subjects:
 - Mathematics.
 - One of the science subjects (Physics, Chemistry or Biology) or a double science subject.
 - English language or English literature.
- The student shall pass two (2) subjects in the advanced level courses (GCE Advanced Level) with one of the success grades (A*, A, B, C, D).

As a British curriculum school, we offer National Curriculum for England. Students do their exams from CAIE and Edexcel board in Year 11.

We also offer Pearson BTEC Level 2 Diploma program in Year 10/11 and Pearson BTEC Level 3 Diploma program in Year 12/13.

Key stage	Age appropriate	Curriculum	Grading
KS3 (Year 7,8&9)	11-13	NCfE	A* to E
KS4 (Year 10&11)	14-15	IGCSE (2 Years program) from CAIE	A* to G
KS5 Year 12 &13)	16-18	A level from CAIE (2 Years program)	A* to E

We at Winchester offer two pathways to our students after Year 9 IGCSE

The following subjects are compulsory for Equivalency.

- Arabic is compulsory for all Arab students till Year 13 and for all Non-Arab students till Year 10
- UAE Social Studies is mandatory for all students till Year 10
- Moral Education is mandatory for all students till Year 13.
- All Muslim students till year 13 must take Islamic Education (MOE).
- All students must take IGCSE English as a First Language and IGCSE Mathematics
- All students must take one of the Science subjects (Physics, Chemistry or Biology)
- Select 5 subjects from the below option form. One subject from each vertical column.
- Students must achieve a minimum of grade B in writing to opt for English Literature as an option.
- An option will be considered viable only if at least 15 students sign up for it.
- All subjects offered are from CAIE board except GCSE Psychology and GCSE Statistics which is from Edexcel board.

Option 1	Option 2	Option 3	Option 4	Option 5
Accounting	Business Studies	Economics	Physics	Business Studies
Physics	Biology	Chemistry	Information and Communication Technology	History
Geography	Art & Design	Food and Nutrition	Biology	Chemistry
Physical Education	Geography	Psychology	Sociology	Information and Communication Technology
English Literature	Computer Science	French	Psychology	Travel & Tourism
Environmental Management	Sociology	Statistics	Economics	Computer Science

Please note that IGCSE certification will only be given only at the end of two-year course. Additional Subjects:

Keeping in mind the growing trend in university requirements, we recommend students to do one or two additional subjects as self-study, however these are not mandatory.

Please note that students can select either of the following subjects as additional subjects which will be supported but not timetabled.

- Geography
- History
- Business Studies
- Sociology
- Travel & Tourism
- EVM
- French

NOTE: Any subject with course work & practical application cannot be done as additional subjects

Students taking additional subjects must;

- Complete the syllabus as per the time line provided by the teacher
- Must attend break time support
- Must practice past paper questions topic wise and submit to the subject teacher for feedback
- Will be registered for the final CAIE exams only if they attempt Pre-Mock and Mock exam for these additional subjects at school.

School will provide support to the students through;

- Break time support lessons
- Teachers will share the timeline with the students to complete the syllabus
- Teacher will mark the past papers and give feedback
- School will administer Pre-Mock and Mock exam for these additional subjects and give detailed feedback.

The students can give the exam for the additional subjects in either of the following sessions.

- May/June 2024
- October/November 2024
- May/June 2025

MOE Equivalency Guidelines:

MOE Equivalency is required for any student who wants to pursue College/University education in UAE or needs Equivalency from MOE for their own home countries.

For students who do not need equivalency from UAE MOE, they will need to confirm the same to the school through the below undertaking.

Please do a thorough research of what you want to pursue in the universities which course you need to pursue in AS level and then make an informed decision for Pathway (IGCSE /Pearson international BTEC Level 2). Please note in order to take subjects at an AS level certain IGCSE subjects are required as a prerequisite. Students must require minimum grade B in their IGCSE subjects to further pursue the subjects at an AS level. If the subject has-been taken as core at an IGCSE level, that subject cannot be taken at an AS level.

Kindly read and complete the below and send as a mail to the Form Tutor by April 21st 2023.

- ✓ Academic and Behavior contract
- ✓ Policy on plagiarism and cheating
- ✓ Letter to parents of Year 9 regarding A s-A level admissions
- ✓ Policy on subject change

In case you need any guidance regarding subject options you may approach the following:

- ✓ Career counsellor Ms Reena Guglani at reena.g1_win@gemsedu.com and Mr Mohammed Nisar at mohamednisar.v_win@gemsedu.com
- ✓ Head of Key stage

Stay safe!
Yours sincerely,
Preeti Manoj
Head of Secondary

AS Level (Year 12) Options Form 2023-2025

- 1. Ministry Arabic is compulsory for all Arabs. Islamic Studies is compulsory for all Muslim students. These are not option subjects for A levels.
- 2. Arabic is compulsory for Arabs and Non- Arabs who wish to attend any UAE University (International/local) in the future.
- 3. Please note that EMSAT examination is the ministry requirement for admission into local UAE University both National and International students. Further details can be found on the individual university websites.
- 4. A student must achieve a minimum B grade in the IGCSE examination in all subjects that he/she wants to pursue at A levels (Year 12 and 13).
- 5. English and Mathematics are not compulsory.
- 6. Students can take only one subject at A levels based on English IGCSE grade. Please note that for A level, Psychology, Sociology and History, IGCSE First Language English is required, if they have not taken Sociology, History and Psychology as IGCSE subject. First Language English is required if the student wants to take English at A level.
- 7. IT and Computer science cannot we written in the same sitting as per CAIE.
- 8. An option will be considered viable and offered only if, at least 10 students sign up for it.
- 9. BTEC is a 2-year programme. BTEC can be studied alone or in combination with A levels. One BTEC is equivalent to 2 A levels. Students can choose either 2 BTEC Options or hybrid option: 1 BTEC and 1 A level.
- 10. Students must choose minimum 3 subjects, one from each option block.

Academic and Behavior Contract

The purpose of this contract is to enable the student to become a responsible, self-motivated, and productive person, achieving high academic and behavioral standards in a positive environment.

I <u>,</u>	of Year	agree to the
following behavior and academic contract.		

- I will make the right choices with regard to my behaviour both in and outside school and will follow the code of conduct as laid down in the school planner.
- I will follow school uniform and attendance policy (as mentioned in school planner).
- I will not take any controversial matter into my own hands or behave inappropriately.
- I will not be involved in any form of verbal / physical / cyber bullying.
- I will be responsible for my own devices and will not use them for any non-academic work in school. I will not upload any photos/videos/any other content on social media which would be considered inappropriate according to UAE laws and school ethos.
- I will report to the school management about any observed or perceived attempt at bullying by any other student.
- I will be attentive in lessons and be an active participant with total commitment.
- I will turn in all my home learning/ assignments/projects/coursework on time.
- I will be well prepared for all my assessments to show good attainment.
- I will study at home in an organised manner each day to consolidate school learning.
- I will not disrupt the learning environment for my fellow students or waste my time by loitering around during lessons.
- I will be respectful towards my teachers and fellow students and show respect towards their culture and religion.
- I will abide by the school's plagiarism and cheating policy.
- I will follow the rules of segregation and will not show any inappropriate display of affection.
- I will not engage in any sort of financial transaction for unethical purpose.
- I will not carry, possess or use any illegal or inappropriate items/substance in the school.

I understand that if I do not honour my contract and do not show a conscious effort to make the right choices in terms of appropriate behaviour and attitude towards learning, the school reserves the right to take very strict action.

Name of the student	Sign
I have read the above contract carefully and will su	apport my child to abide by the school's expectations.
Name of the parent	Sign
Dated	

Attendance and Punctuality Contract

The school expects all children/students to be in the respective classroom/form rooms by 7:45am. Registration is between 7:50am – 8:15am. The school gate is closed at 7:50am. Any child arriving after 7:50am, is required to log in at the security gate where they will receive a late slip, which must be submitted to the Form Tutor. Child arriving after 8:10am must report to the respective Secretary of the Head of School and submit the late slip so the Secretary marks their attendance.

Each time a child arrives late, the parent/child is spoken to. Upon receiving two late slips, the Class Teacher/Form Tutor either writes or calls the parent. If regular lateness impacts on learning then a meeting must be called. All late slips and record of phone call/email/note in planner needs to be shared with the parent in the meeting. Notes will be taken using the lateness and attendance form and a record kept that a meeting has taken place.

If punctuality continues to be a cause for concern then the teacher should escalate this up to the Head of Year for action and then if necessary to Head of Key Stage/SLT.

Students' absenteeism and tardiness affect the school's ability to provide effective educational services, the achievements of consistently absent or late students and disrupt the learning experiences of other students in the school. Parents, the students and the school must work together to improve and maintain high attendance rates.

Please find the implications of tardiness and absenteeism below:

Policies for Change of Option

We understand that in spite of giving clear and relevant information, our youngsters may wish to change their options. A few of the reasons may be:

- Change of career plans
- No aptitude/interest for the subject

The students have an opportunity to change their choice of subject on or before Friday, 6th October 2023, for which they need to follow the following procedures.

- A letter from the parent, requesting a change of option, with relevant details including the student's name, class, chosen subject, new subject that the student wishes to choose, reason for the change, date and signature of the parent, needs to be given to the Head of Year 10.
- The HOY would give the student a form which needs to be completed and returned to the Head of Year.
- HOKS-4 would issue a letter sanctioning/ not sanctioning the change after due consideration and discussion with respective HOD on availability, feasibility and ability of the student.

We also wish to remind you that submitting a request does not guarantee a change of option as sometimes there may not be a vacancy in the subject group or the reason for change may not be valid. A student will not be allowed to change subjects without the approval letter signed by the Head of Key Stage 4.

Requests for change of option need to be submitted still Friday, 6th October 2023. Any requests after the above-mentioned dates will not be considered. Please understand that the time frame for change is planned in such a way as to minimise loss of learning time for the student.

We look forward to your support and co-operation in this matter of great importance.

Policy on Plagiarism and Cheating

Plagiarism

Excellent well – formulated ideas of written expression are a basic skill for academic and career success. If a student adopts plagiarism this gives a false view of his/her academic strength and affects next steps in learning.

Plagiarism includes:

- Copying someone else's assignment or a part of the course work and submitting it as one's own.
- Submitting work written by someone else or rephrasing it. ·
- Asking a friend, parent, sibling or a tutor to write the assignment.
- Submitting an assignment from the samples of work available from the internet or books available in the market as one's own.

Cheating

Winchester is a student-centred school and focuses on education which is based on learning specific skills, encouraging students to develop the habit of lifelong learning, and guiding our students to be mature with individual abilities which are unique. Cheating brings a lot of symptoms to our notice, like over-commitment of a student, too many extracurricular activities or no clear sense of direction. Stress and depression steers students to make unethical choices. This may lead to loss of self – esteem and also lose their competency. Cheating includes:

- Copying, emailing, printing or in any other way of duplicating the assignment wholly or in part or as original work.
- Exchange of a handwritten or computer-generated assignment.
- Any form of computerised memory or other memory format used to help in revising or expressing.
- Using a computer or other means to translate an assignment from one language into another language and submitting it as an original translation
- Taking credit for group work when the student has not contributed an equal or appropriate share towards the final result.
- It is the student's responsibility to secure his or her papers so other students will not have the opportunity or the temptation to copy.

Consequences: Any form of Plagiarism or Cheating in any internal or external examination will result in termination of candidate's entry to appear in any external examinations.

I hereby accept the terms and condition	s mentioned above.

Letter to parents of Year 10 students for meeting the criteria for AS-A level admissions – Year 12

Dear Parents,

Being an ever-reflective school, we are constantly evaluating what best can be done to motivate and encourage our students as they are in the crucial external examination years. We hope that you understand the significance of students putting in maximum effort to their academics and personal development continuously so that they are able to maximize their potential and their performance, attitude and behavior does not become a hindrance in achieving the required grades for higher education.

Please understand that in order to be eligible for admission into the AS-A level programme (2023-2025), a student must meet the following criteria

- 1. Minimum 'B' grade in the subjects they want to pursue in Year 12
- 2. A letter of recommendation of good behaviour from the HOK-4.
- 3. Attendance in Years 10 and 11 to be very good. (at least 96%)

Please note that any student who is not able to meet the above criteria will not be eligible for admission in AS-A level course. Looking forward to your continued support in making your child realize the importance of focusing on and achieving good academic and personal development.

Kindly fill in the acknowledgement slip & return to the respective form tutor by \mathbf{Friday} \mathbf{April} $\mathbf{21^{ST}}$, $\mathbf{2023}$.

Yours sincerely,

Preeti Manoj Head of Secondary preeti.m_win@gemsedu.com

Career Counsellor's Note: 'Encourage, Empower, Execute'

The office of Career Counselling at the Winchester School is committed to the development of skills, attitudes and knowledge through a planned program of learning experiences, assisting all students to make informed decisions about school & post school options. Career Education provides a coordinated and comprehensive program of learning experiences which addresses the developmental needs of all students.

Our focus is to encourage our students to explore the diverse options of study available to them by helping our students identify their own learning styles, aptitude and natural tendencies to effectively support and guide their educational and career decisions as they prepare for transition into young adulthood.

We empower them with the knowledge of various upcoming curriculum options & destinations of higher education through weekly assemblies and informational sessions held by field experts.

Execution of their aspiration and goals are assisted as we are a student-centered support service: we offer one-on-one counselling appointments, consultations throughout the career planning process and goal achievement through a variety of career exploration activities.

Career counselling takes care of various aspects like personal insight, support and even a better understanding. Other than these, it helps in building a high motivational level by understanding the individualistic needs of every student. It ensures that every individual sets up some goals of consequence and gives their best in achieving them.

The best part about career counselling is that it inspires every individual to make a career for themselves in a field in which their interest and passion lies. By doing so, it aids every individual to know their own powers and the success that lies nowhere else, but inside them self. Careers cannot be taken for granted. Choices must be made carefully to ensure every student has the chance to pursue their appropriate career path.

Reena Guglani

Arabic

Following the rules and regulations laid by KHDA, Arabic is compulsory for Arab students in Years 1 to 13, in the United Arab Emirates. For Non-Arabs it is compulsory till Year 10. However, some universities in the U.A.E do require Arabic. In Year 10, all follow the curriculum prescribed by Ministry of Education that will link to IGCSE curriculum for examination at the end of Year 11. The reasons for studying Arabic are:

- To enable the students to communicate accurately, appropriately and effectively in writing. To enable the students to understand and respond appropriately to what they read.
- To encourage the students to enjoy and appreciate the language of the host country.
- To complement other areas of study, by developing skills of a more general application (example: analysis, synthesis, anddrawingofinferences).
- To promote the students' personal development and an understanding of themselves and other people.
- Toensure the eligibility criteria for admission into University and approval of certificate on completion of course.

Arabs

Arabic language for Arabs uses the curriculum prescribed by the Ministry of Education and finally progresses to IGCSE First Language Arabic examination conducted by CIE at the end of the Year 11.

Non-

Arabs

Arabic language for non-Arabs uses the curriculum prescribed by Ministry of Education and finally progresses to IGCSE.

Islamic Education

Following the rules and regulations of Ministry of Education, Islamic Education is a compulsory subject for Muslim students in Years 1 to 12.

The reasons for studying Islamic are:

- To educate the students about their religion.
- Toteach the students the five Pillars of Islam and how to perform them.
- To teach the students about all the Prophets.
- To teach the students good morals.
- To enable the students to differentiate between Halal and Haram.
- To educate the students about life, death and the Last Day
- To know more about Figh and interpretation of Quran.

More about Islamic Education

- Islamic Education for both Arabs and Non-Arab students is based on the book 'Islamic Education'-from the Ministry of Education.
- Passing the exam is essential to pass the Year.
- Pass marks are 50%.
- There is only one paper each for Islamic Education for Arabs and non Arabs.
- It is assessed internally.

Accounting (Code: 0452)

Accounting at IGCSEL evel helps students to:

Develop an understanding of the principles and purposes of Accounting in providing information systems for monitoring and decision-making appropriate to the needs of individuals, businesses and non-trading organisations and society as a whole.

- Develop an understanding of accounting concepts, conventions, procedures and terminology.
- Develop skills of numeracy, literacy, communication enquiry, presentation and interpretation.
- Encourage attitudes of accuracy, orderliness and logical thought.

Assessment overview

All candidates take two papers.

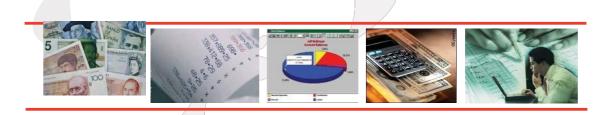

All candidates take:

Paper 1 1 hour 15 minutes
Multiple Choice 30%
35 marks
Multiple-choice questions
Questions will be based on all syllabus content
Externally assessed

and:

Paper 2 1 hour 45 minutes
Structured Written Paper 70%
100 marks
Questions will be based on all syllabus content
Externally assessed

After completing IGCSE Accounting, students can take up further studies in Accounting such as Management Accounting, Financial Accounting, Chartered Accounting and other Business-related subjects.

Economic Code 0455

Economics investigates the ways in which the decisions of firms, consumers, and Government affect business and economic performance. The syllabus provides students with a broad education and personal skills of analysis, critical thought and expression, which enable them to take up a wide range of careers. Students could go on to some form of further study, either research, a higher degree or vocational training for courses such as Teaching, Banking, Management or Journalism

SCHEME OF ASSESSMENT

All candidates will be required to take two papers.

Description	Weightage
30 Multiple choice questions	30%
Structured Questions	70%
	30 Multiple choice questions

Candidates answer one compulsory question, which requires them to interpret and analyse previously unseen data relevant to a real economic situation, and three optional questions from a choice of four.

Course Options after IGCSE

B. A/B.Sc. Honours – Economics B.A.

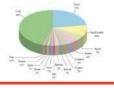

MBA Finance and Marketing

Bachelor of Business Administration

Computer Information Systems

Business Studies Code: 0450

The IGCSE Business Studies course is divided into 5 distinct areas, which are studied in depth:

Understanding business activity

Peopleinbusiness

Marketing

Operations management

Financial information and decisions External

influences on business activity

Assessment of Work

100% written Examination. No Coursework involved.

Weightage of each paper

Paper Description	Marks	Weightage		
Description	0.0	T 004		
1	80	50%	Short Answer and Data Response	
2	80	50%	Case Study	

IGCSE Business Studies requires students to:-

Develop knowledge with understanding

Be able to analyse information in narrative, numerical and graphical forms

Be able to make judgments, recommendations and decisions on given situations/problems

Make effective use of relevant terminology, concepts and methods and evaluate the strengths and limitations of the ideas used.

COURSE OPTIONS AFTER IGCSE

IGCSE Business Studies provides a basic foundation for all management courses such as:

Bachelor of Business Administration

Master of Business Administration

Chartered Accountancy

Management Information System

Travel and Tourism Code:0471

IGCSE Travel and Tourism is designed to help meet the need for skilled and knowledgeable individuals in this rapidly diversifying industry. The syllabus develops practical skills across a range of working roles, as well as providing a global and local perspective on travel and tourism. Students gain an overview of the industry, and learn about popular destinations, customer care, working procedures, travel and tourism products and services, and marketing and promotion. Through their studies, students will gain an understanding of the concepts, models and theories used within the industry, and also enhance their skills of investigation, analysis, interpretation and evaluation.

AIMS

The aims of the Travel and Tourism syllabus are to provide students with:

- 1. Understanding of the travel and tourism industry
- 2. Theoretical knowledge of the industry and related sectors, including:

 Knowledge of travel and tourism products and services; the infrastructure on which they depend and the transport system needed to operate them
- 3. Practical ability in a range of skills and procedures related to working in the travel and tourism industry, including the knowledge of the essential personal and professional skills required by individuals working in the service sector
- 4. Critical awareness of the physical, social and economic environments in which travel and tourism take place, including: understanding of the global, regional and local perspectives of travel and tourism

DESCRIPTION OF EXAM PAPERS

Students will be required to take two papers. Paper 1 (2 hours, weightage 60%)
Core Paper 100 marks

This paper comprises four scenario-based questions which require students to provide short answers. The scenarios are set in an international Travel and Tourism environment. Students will also be expected to study photographs and extracts (posters, news reports, brochures) and will be required to answer questions based on these resources as well as their own subject knowledge.

Paper 2 (Alternative to Coursework – 2½ hours, weightage 40%) 100 marks

This paper comprises scenario-based questions which require students to provide shortanswers. This paper requires a broad understanding of the principles of marketing and promotion and of the ways in which marketing and promotion are used within the Travel and Tourism industry.

Why Study English

"Studying English helps you develop the insight of an artist, the analytical precision of a scientist, and the persuasive ness of a lawyer."- Prof Maureen Moran

What potential employers want most is someone with motivation, intelligence, and a proven ability to work. Getting an English IGCSEshows that you have all of those qualities.

The ability to communicate is also very valuable for almost any job. Studying English teaches you how to write clearly and effectively. Most courses also require presentations and seminar discussions to develop your spoken communication skills.

All that reading is useful, too. Studying English, teaches you how to analyse complex information with the help of sophisticated ideas and theories. The ability to read, reflect, and critique- and then synthesise your conclusions clearly- is essential to many kinds of work- as is the ability to construct and defend an argument.

Aim

S

To encourage:

- A critical and informed response to writing in a range of forms, styles and contexts.
- The interdependent skills of reading, analysis and communication.
- Effective and appropriate communication.

Assessment Objectives

The aims are to:

- 1. enable students to communicate accurately, appropriately and effectively in speech and writing;
- 2. enable students to understand and respond appropriately to what they hear, read and experience;
- 3. encourage students to enjoy and appreciate variety of language;
- 4. complement students' other areas of study by developing skills of a more general application (e.g. analysis, synthesis, drawing of inferences);
- 5. Promote students' personal development and an understanding of themselves and others.

Scheme of Assessment

IGCSE First Language English (Extended) All students will attempt IGCSE 1st Language.

	Duration of Examinatio	Weightage of Papers
Paper 1 –Reading Comprehension -Directed reading -Language Analysis -Summary	2 hours	50%
Paper 2-Directed Writing and Composition	2 hours	50%

Future Prospects

The analytical and communication abilities that an English IGCSE provides are called 'transferable skills': they're useful in almost any occupation. When you're looking for a job, they're often the most valuable skills to have.

Because of this flexibility, English students find careers in a wide range of fields, like publishing, teaching, advertising, law, journalism, mass media, or charitable organisations.

English Literature ______Code: 0475

AIMS

- •Enjoy the experience of reading literature
- Understand and respond to literary texts in different forms and from different periods.
- Communicate an informed personal response appropriately and effectively
- Appreciate different ways in which writers achieve their effects
- Experience literature's contribution to aesthetic, imaginative and intellectual growth
- •Explore the contribution of literature to an understanding of areas of human concernAO1 Show detailed knowledge of the content of literary texts in the three main forms (drama, poetry and prose), supported by reference to the text.

ASSESSMENT OBJECTIVES

- **AO1** Show detailed knowledge of the content of literary texts in the three main forms (drama, poetry and prose), supported by reference to the text.
- AO2 Understand the meanings of literary texts and their contexts, and explore texts beyond surface meanings to show deeper awareness of ideas and attitudes.
- AO3 Recognise and appreciate ways in which writers use language, structure and form to create and shape meanings and effects.
- AO4 Communicate a sensitive and informed personal response to literary texts.

ASSESSMENT OVERVIEW

All candidates take Paper 1 Poetry and Prose, AND Paper 2 Drama.

Paper 1	1 hour 30 minutes
Poetry and Prose	50%
50 marks	
Two questions on two text	s: one poetry and one prose
Externally assessed	
Paper 2	1 hour 30 minutes
Drama	50%
50 marks	
Two questions on two text	CS
Externally assessed	

COURSE OPTIONS AFTER IGCSE

- AS & A Level English
- Psychology
- Sociology

- Media & Journalism
- Law

French Code: 0520

AIMS

The aims of the syllabus are the same for all students.

Theaims are to:

- 1 develop the ability to use the language effectively for purposes of practical communication within the country of residence, where appropriate, and in all the countries where the language lis spoken.
- 2 form a sound base of the skills, language and attitudes required for further study, work and leisure.
- 3 offer insights into the culture and civilisation of the countries.
- 4 encourage fuller integration into the local community, where relevant.
- 5 develop a fuller awareness of the nature of language and language learning.
- 6 encourage positive attitudes toward language learning and towards speakers of other languages and a sympathetic approach to other cultures and civilisations.
- 7 provide enjoyment and intellectual stimulation.
- 8 complement other areas of study by encouraging skills of a more general application (e.g. analysis, memorising, drawing ofinferences).

ASSESSMENT OBJECTIVES

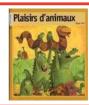

The one assessment objective is Communication, which incorporates the four sub-skills:

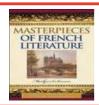

- A Listening
- **B** Reading
- C Speaking
- **DWriting**

^{*} Individual Centres are responsible for conducting the tests and for the initial assessment, which is then subject to moderation by Cambridge.

Geography Code: 0460

Introduction

The teaching of Geography at the school is intended to help students understand contemporary problems and to develop skills in the evaluation and interpretation of geographical information. Basic to these is the development of a sense of place and understanding of various locations on local, regional and global scales. Processes affecting development in a range of physical and human environments are featured.

At IGCSE level, the study of Geography may help students to prepare for further education and employment in Education, Industry, Town and Country Planning, Meteorological Stations, Geological Surveyor, Aviation, Environmental consultants, Marketing, Business Administration and Management Decision Making.

Aims

- An understanding of relative location on a local, regional and global scale.
- An awareness of the characteristics, distribution and processes affecting contrasting physical and human environments.
- An understanding of the contrasting opportunities and constraints presented by different environments.
- An understanding of the ways in which people interact with each other and with their environments.
- An appreciation of the earth including its people, places, landscapes, natural processes and phenomena.

Assessment Objectives

The three assessment objectives (AO) are:

AO1: Knowledge with Understanding.

AO2: Skills and Analysis

AO3: Judgement and Decision Making

Scheme of Assessment

Paper	Time	Weightage	Type of Questions
1 - Geographical Themes (75 marks)	1 hour 45 minutes	45%	Structured questions based on themes. Selecting one question from each section, students to answer 3 questions altogether.
2 – Geographical Skills (60 marks)	1 hour 30 minutes	27.5%	Students must answer all the questions. The paper tests skills of application, interpretation and analysis of geographical information.
4 – Alternative to Coursework (60 marks) 1 hour 30 minutes		27.5%	Students must answer two compulsory questions, completing a series of written tasks.

Sociology Code: 0495

All of us take for granted the importance of order in social life. What Sociology does is to treat this taken-for-granted aspect of our lives as something worthy of investigation and try to explain its various forms and the processes by which they change.

Everyone who lives in society is, and must be, a kind of sociologist. However, the study of Sociology as an academic subject enables one to look behind and beyond the everyday assumptions and judgements through which most people form a picture of their social world.

IGCSE Sociology provides students with the theories, empirical knowledge and the technical language you need to explore and understand the different ways of investigating social life.

Aims:

- 1. Promote candidates' awareness, knowledge and understanding of human societies.
- 2. Develop an understanding of sociological method, including the collection, analysis and interpretation of data.
- 3. Provide an introduction to sociological concepts, theories and research findings.
- 4. Stimulate awareness of the range and limitations of sociological theory and research.
- 5. Promote candidates' understanding of continuity and change in social life.
- 6. Encourage a critical awareness of social, economic and political processes and their effects.
- 7. Develop the capacity for the critical evaluation of different forms of information and evidence.
- 8. Promote an appreciation and understanding of individual, social and cultural diversity.
- 9. Enhance candidates' ability to apply sociological knowledge and understanding to their own lives and participation within society.

Assessment Objectives

The three assessment objectives (AO) are-

AO1- Knowledge and Understanding

AO2- Interpretation of Evidence

AO3- Analysis and Evaluation

Scheme of Assessment

Paper	Time	Weightage	Type of Questions
1			Structured answer one compulsory data
(80 marks)	2 hours	54%	response question and one optional structured
(ou marks)			question from a choice of two.
2	1 hour 45 minutes	46%	Students answer two optional structured
(70 marks)	1 Hour 43 Hillinutes	40%	questions from a choice of four.

Studying Environmental Management helps students to understand human's impact on Earth. It recognizes human's basic need to survive, their perceptions, their sense of values and their behaviour patterns towards preserving and managing the environment in a self-sustaining way. To achieve sustainability, human needs to consider the way they think and make decisions.

Material studied in this course is drawn from a wide range of traditional disciplines such as Biology, Chemistry, Earth Sciences, Geological Science, Geography, Economics and Anthropology.

Students are encouraged to examine the inter-dependence of the earth's natural systems and how human kind uses natural resources. The course is structured to help students understand development strategies in selected areas whilst preparing them to be participants in defining the future of their world.

At IGCSE level, Environmental Management may help students prepare for Higher Education or for employment in Public Administration, Education, Aviation, Industry, Commerce, Agriculture, Civil and Environmental Engineering, Human Resource Management, Weather Stations and Environ-mental Management.

Aims

- a knowledge of natural systems which make life possible on Earth.
- an understanding that humans are part of this system and depend on them.
- an appreciation of the diverse influences of human activity on the natural system.
- an awareness of the need to manage natural systems.
- an understanding of sustainable development to meet the needs of the present, without compromising the ability of future generations to meet their own needs.
- a sense of responsibility and concern for the welfare of the environment and all organism.
- an awareness of their own values concerning environmental issues.
- an awareness of the values of others.
- a willingness to review their own attitudes in the light of new knowledge and experiences.
- a sound basis for further study, personal development and participation in local and global environmental concerns.

Assessment Objectives

The three assessment objectives (AO) are-

AO1- Knowledge and Understanding

AO2-Information Handling and Analysis

AO3-Investigation Skills and making Judgements

Scheme of Assessment

Paper	Time	Weightage	Type of Questions
1- Theory (80 marks)	1 hour 45 minutes	50%	This paper contains two sections. Section A comprises short and structured questions while section B comprises short and extended response questions. Students answer all
			questions.
2 – Management in			This paper consists of short-answer, data processing and
Context	1 hour 45 minutes	50%	analysis, and extended response questions based on source
(80 marks)			material. Students answer all questions.

History Code: 0470

This syllabus offers the opportunity to study world history from the nineteenth century to the beginning of the twenty-first century. Learners will explore history from a diversity of perspectives, including social, economic, cultural and political. Cambridge IGCSE History encourages learners to raise questions and to develop and deploy historical skills, knowledge and understanding in order to provide historical explanations. A course in History can open the career options to be a lawyer, journalist, anthropologist, event planner, archivist, curator, research analyst to name a few.

Syllabus

aims:

The aims of Cambridge IGCSE History are to:

- stimulate an interest in and enthusiasm for learning about the past
- promote the acquisition of knowledge and understanding of individuals, people and societies in the past
- ensure that learners' knowledge is rooted in an understanding of the nature and use of historical evidence promote an understanding of key historical concepts: cause and consequence, change and continuity, and similarity and difference
- provide a sound basis for further study and the pursuit of personal interest encourage international understanding
- encourage the development of historical skills, including investigation, analysis, evaluation and communication skills.

Assessment objectives:

The assessment objectives (AO) are:

AO1 - An ability to recall, select, organise and deploy knowledge of the syllabus and content.

AO2 - An ability to construct historical explanations using an understanding of:

- cause and consequence, change and continuity, similarity and difference;
- the motives, emotions, intentions and beliefs of people in the past.

AO3 - An ability to understand, interpret, evaluate and use a range of sources as evidence, in their historical context.

Scheme of Assessment:

Paper	Time	Weightage	Type of Questions
1 (60 marks)	2 hours	40%	Candidates answer two questions from Section A (Core Content) and one question from Section B (Depth Studies). All questions are in the form of structured essays
2 (50 marks)	2 hours	33%	This is a source-based paper. Candidates answer six questions on one prescribed topic taken from the Core Content.
4 – Alternative to Coursework (40 marks)	1 hour	27%	Candidates answer one question on the Depth Study.

Edexcel GCSE (9-1) Psychology

This curiculum is an opportunity to engage students as they explore human behaviour, helping them to develop an understanding of themselves and others. Through the study of a wide range of engaging and contemporary topics, students will gain knowledge and understanding of key features in the following core areas of psychology.

○ Biological—An understanding of biological concepts in psychology, including neuroscience and genetics as contributors to behaviour.

Cognitive—An understanding of thought, information and mental processing as contributors to behaviour.

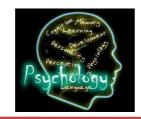

Social — An understanding of the social area of psychology, the impact of social and environmental factors on behaviour and the influence of groups.

Developmental – An understanding of how individuals change throughout their lives, with a particular focus on childhood and how both nature and nurture can affect individuals.

• Individual differences – an understanding of the complex nature of human behaviour and experiences and why and howpeople are different.

Component	Overview	Assessment			
Paper 1 55%	All topics: • How did you develop? • How does your memory work?	Written examination. 1hr45mins			
	 How would psychological problems affect you? How does your brain affect you? How do others affect you? 	98 marks			
Paper 2 45%	 Two topics from: Why do people become criminals? What makes you who you are? How do you interpret the world around you? Why do you need to sleep and dream? How do you communicate with others? And: How do you carry out psychological research? (Research Methods and Math Skills.) 	Written examination. 1hr20mins 79 marks			
A01 35%	Demonstrate knowledge and understanding of psychological ideas, processes and procedures.				
A02 35%	Apply knowledge and understanding of psychological ideas, processes and procedures.				
A03 30%	Analyse and evaluate psychological information, ideas, processed and procedures to make judgements and draw conclusions.				

Mathematics Code: 0580

Mathematical questions arise quite often in everyday life.

Have you ever thought?

- How many dollars will I get for 1000dirhams?
- How much will I pay with a 30% discount?
- If I buy a stereo by installments how much more will I pay?
- Which size packet of soap is more economical?
- If one tin of varnish covers 8 square metres then how much varnish will I need for 24 square metres?

Our courses in the Secondary School will ensure that you never get stuck on questions like these as they develop higher logical thinking and application skills.

A good grade in IGCSE Mathematics will also open doors to:

- abetter job (wide range of career choices)
- AS and A-level courses
- further and higher education

What courses can I pursue after studying IGCSE/AS/A levels?

Mathematics are employed in a wide range of careers such as:

Accounting, Business and Finance, Engineering, Law, Management, Medicine, Scientific Work and Teaching. An AS or A level qualification is useful for pursuing virtually any further or Higher Education course.

What courses will I study?

At IGCSE you will follow the CIE syllabus 0580. Students are entered at Core curriculum or the Extended curriculum.

In the Core curriculum course the papers are targeted at grades in the range C-G and in the Extended curriculum course the papers are targeted at grades in the range A^*-D .

Cambridge IGCSE Mathematics is assessed via two components. All students take two written papers.

Students who follow the Core curriculum take Papers 1 and 3 and are eligible for grades C to G.

Students who follow the Extended curriculum take Papers 2 and 4 and are eligible for grades A* to E.

Entry Requirements for Extended and Core:

Entry to the Extended and core curriculum is determined by performance in Year 8. A minimum level of Secure C is required for a child to be in extended curriculum. Due to the nature and degree of difficulty of the extended curriculum syllabus, pupils are expected to obtain a minimum of a C grade to study this course. Those who do not meet this requirement will be advised to follow the Core curriculum syllabus.

Pupils' progress is monitored regularly in Year 10 and 11 through a series of assessment cycles. Further advice regarding a change from Extended to Core is given after the Mock Examinations in Year 10 and 11.

To ensure that all pupils achieve the best possible grade commensurate with their ability in the final IGCSE examinations, it is required that students in the Extended curriculum achieve at least a C grade in the December Mock Examinations.

Core and Extended: Entry Requirements.

Entry to the **Extended and Core** levels is determined by performance in Year 8. Due to the nature and degree of difficulty of the extended syllabus, pupils are expected to obtain a minimum of a C grade to study this course. Those who do not meet this requirement will be advised to follow the Core syllabus.

Pupils' progress is monitored regularly in Year 10 and 11 through a series of assessment cycles. Further advice regarding a change from Extended to Core is given after the Pre-Mock Examinations in Year 10 and 11.

To ensure that all pupils achieve the best possible grade commensurate with their ability in the final IGCSE examinations, it is required that Extended pupils achieve at least a C grade in the December Pre-Mock Examinations.

Students who wish to study Mathematics in the Sixth Form should also be aware that a minimum of a B grade is required on the Extended level at IGCSE.

Assessment overview

All students take two papers.

Pupils who have studied the Core syllabus content, or who are expected to achieve a grade D or below, should be entered for Paper 1 and Paper 3. These students will be eligible for grades C to G.

Pupils who have studied the Extended syllabus content and who are expected to achieve a grade C or above

should be entered for Paper 2 and Paper 4. These students will be eligible for grades A* to E.

Components	Number %	Algebra %	Shape and	Probability	Grades
			space %	and statistics	Available
				%	
Core	30–35	20–25	30–35	10–15	C-G
(Papers 1 and 3)					
Extended	15–20	35–40	30–35	10–15	A*-E
(Papers 2 and 4)					

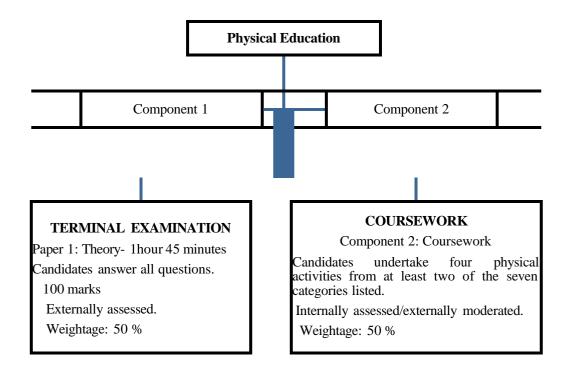

- Calculators are allowed throughout the assessment.
- Learners should know when and how to use their calculator, how to check their answers and how to apply rounding appropriately when solving a problem.
- Learners should be able to show their working and be able to communicate mathematically, using appropriate notation and structure to communicate their reasoning within a problem.
- Three significant figures will be required in answers (or one decimal place for answers in degrees) except where otherwise stated.
- Students should use the value of π from their calculator or the value of 3.142.
- Tracingpapermaybeusedasanoptionaladditional material for each of the written papers.

Core candidates take:	Extended candidates take:

Physical Education Code: 0413

The syllabus provides candidates with an opportunity to study both the practical and theoretical aspects of Physical Education. It is also designed to foster enjoyment in physical activity. The knowledge gained should enable candidates to develop an understanding of effective and safe physical performance.

This subject will be shown on the IGCSE certificate as PHYSICAL EDUCATION.

SCHEME OF ASSESSMENT

Componen	Name	Duration	Weightage	
1	Paper 1	1 Hr. 45 min	50%	
2	Coursework	On going	50%	

 $Candidates take on epaper and course work. \quad Grades available are \quad A^*-G.$

Physical Education (Continued)

- Anatomy and physiology
- ★ Health, fitness and training
- Skill acquisition and psychology
- Social, cultural and ethical influences

Coursework is made up of seven categories of practical activity:

- Games Activities
- ★ Gymnastic Activities
- Dance Activities
- Athletic Activities
- Outdoor and Adventurous Activities
- Swimming
- Combat Activities

SYLLABUS AIMS

Candidates should be encouraged to:

- develop their knowledge and understanding of the theory underpinning physical performance in a modern world
- use and apply this knowledge and understanding to improve their performance
- perform in a range of physical activities, developing skills and techniques, and selecting and using tactics, strategies and/or compositional/ideas
- understand and appreciate safe practice in physical activity and sport
- understand and appreciate the benefit of physical activity and sport for health, fitness and well-being
- gain a sound basis for further study in the field of Physical Education

ASSESSMENT OBJECTIVES: The assessment objectives are:

- Assessment Objective 1: To demonstrate knowledge and understanding of the theoretical principles that underpin performance in physical activity/sport.
- Assessment Objective 2: To apply knowledge and understanding of the theoretical principles to a variety of physical activities/sports, including the analysis and evaluation of performance
- Assessment Objective 3: To demonstrate the ability to select and perform appropriate skills to produce effective performance in practical activities

Science

Science is undoubtedly an integral part of modern culture. It stretches the imagination and creativity of young minds. Its challenges are enormous and understanding of it is invaluable. Studying science teaches young people to be good at analysing and helps them to make the complex simple. It trains the mind in a way that industry prizes.

Scientific ideas contribute to technological change having an impact on industry, business, and medicine and improving the quality of life. Students learn to discuss personal, social and health-based issues that may affect their lives, the direction of society and the future of the world.

During Key Stage 4, students are offered three single sciences out of which they have a choice of taking one, two or all four sciences: Physics, Chemistry, Biology and Food & Nutrition. Teaching of each branch ensures that scientific enquiry is taught through context to satisfy knowledge, skills and under-standing.

Physics (0625) deals with the topics related to mechanics, waves, different forms of energy such as heat, light, electricity and electronics energy.

Chemistry (0620) is related to the study of elements, mixtures, compounds, mole concept, electrochemistry and factors affecting the various types of chemical reactions.

Biology (0610) deals with the understanding of the structure and function of plants and animal bodies and their interaction with the non-living world on this planet.

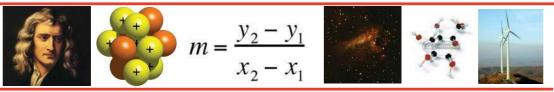

Food and Nutrition (0648) Food and Nutrition (0648) deals to develop the understanding of nutrition and health problems associated with diet, the creative side and enjoyment of food and the skills necessary for food preparation and food preservation.

Teaching of each Science is supported by various types of resources and activities such as Videos, Lab Experiments, Models, Projects, and Field Trips etc. to stimulate students' Audio, Visual and Kinestheticlearning styles.

At the end of two years' study, students will sit the IGCSE exam as Core or Extended doing 3 papers for each.

Paper No.	Paper Title Paper Title	Content Assessed	Duration	Weightage
1	Multiple	Core	45 mins	30%
2	Multiple	Extended	45 mins	30%
3	Structured	Core	1 hour 15 mins	50%
4	Structured	Extended	1hour 15 mins	50%
6	Alternative to practical	laboratory based procedures.	1 hour	20%

Candidates following the Corecurriculum should take paper 1, paper 3 and paper 6. Grades C-G will be available to these candidates. Candidates following the extended curriculum should take paper 2, paper 4 and paper 6. The full range of Grades A^* - G will be available to these candidates. Please note that students scoring less than 60% in Year 9 science exam will be advised to take Core in Science.

Science (Continued)

Skills needed – All skills, concepts and background knowledge that students need would have been covered in years 7-9. Key Stage 4 Science will involve studying concepts in more detail there- fore requires a greater understanding of topics and application of knowledge gained which needs to be complemented with analytical and experimental skills.

The list is endless for careers as well as the job opportunities after taking Science subjects for IGCSE. It gives you a head start and easier beginning to studying Science at A level or its equivalents.

Some of the career options open to students after studying one or more sciences are:

Careers using BIOLOGY	Careers using CHEMISTRY	Careers using PHYSICS
Biology Teacher	Chemistry Teacher	PhysicsTeacher
Biochemist	Biotechnologist	Aeronautical Engineer/Pilot
Genetic Engineer	Chemical Engineer	Astronomer
Dietician	Pharmacist 2000	Cyberneticist
Doctor	Crime Officer	Surveyor
Ecologist	Forensic Scientist	Meteorologist
Health Officer	Material Scientist	Flight Manager
Medical Lab Technician	Metallurgist	Engineer
Marine Biologist	Research Scientist	Biophysicist
Microbiologist	Chemical Plant Operator	Nuclear Scientist
Radiographer	Industrial Chemist	Optometrist
Veterinary Doctor	Water Technologist	Geophysicist
Beauty Therapist	Quality Control Officer	Medical Physicist
Nurse	Biochemist	Bioengineer
Agriculturist	Lab Technician	Science Fiction writer
Oceanographer	Medicine	Space Scientist
Pathologist	Environmentalist	Satellite Specialist

$$m = \frac{y_2 - y_1}{x_2 - x_1}$$

Science (Continued)

Food and Nutrition (0648): We have introduced another subject **Food and Nutrition (0648)** from this academic year 2018. Food and Nutrition (0648) deals to develop the understanding of nutrition and health problems associated with diet, the creative side and enjoyment of food and the skills necessary for food preparation and food preservation. At the end of two years' study, students will sit the IGCSE exam doing 2 papers, one Theory and one Practical.

Paper 1 Theory 2 hours

Written paper consisting of short-answer questions, structured questions and open-ended essay questions.

100 marks

50% of total marks

Paper 2 Practical Test 2 hours 30 minutes with Planning Session of 1 hour 30 minutes

Candidates have a Planning Session of 1 hour 30 minutes one week before the Practical Test

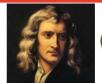

Practical Test of 2 hours 30 minutes.

100 marks

50% of total marks

Some of the career options open to students after studying Food and Nutrition

- Dietitians,
- Nutritionist
- School Nurses
- Extension Agents,
- Public Health Professionals,
- School Food Service Professionals.
- Research Scientist (medical)
- Secondary School Teacher

$$m = \frac{y_2 - y_1}{x_2 - x_1}$$

3.1 Introduction and aims

An Art and Design course should encourage personal expression, imagination, sensitivity, conceptual thinking, powers of observation, an analytical ability and practical attitudes. It should lead to greater understanding of the role of the visual arts in the history of civilisations and widen cultural horizons and enrich the individual. In addition, it should combine a breadth and depth of study so that it may accommodate a wide range of abilities and individual resources.

Art and Design complements literary, mathematical, scientific and factual subjects. It is especially concerned with the development of visual perception and aesthetics and is a form of communication and a means of expressing ideas and feelings.

This syllabus is intended as a broad course exploring practical and critical/contextual work through a range of two-dimensional and/or three-dimensional processes. Where Art and Design as a title or descriptor is used in this syllabus, it also encompasses new media and technologies in addition to traditional media and processes.

Cambridge IGCSE Art and Design is designed as a two year course for examination at age 16 plus.

It encourages candidates to develop:

- 1. an ability to record from direct observation and personal experience;
- 2. an ability to identify and solve problems in visual and/or other forms;
- 3. creativity, visual awareness, critical and cultural understanding;
- 4. an imaginative, creative and personal response;
- 5. confidence, enthusiasm and a sense of achievement in the practice of Art and Design;
- 6. growing independence in the refinement and development of ideas and personal outcomes;
- 7. engagement and experimentation with a range of media, materials and techniques, including new media where appropriate;
- 8. experience of working in relevant frameworks and exploration of manipulative skills necessary to form, compose and communicate in two and/or three dimensions;
- knowledge of a working vocabulary relevant to the subject and an interest in, and a critical awareness of, other practitioners, environments and cultures;
- 10. investigative, analytical, experimental, interpretative, practical, technical and expressive skills which aid effective and independent learning.

Assessment overview

All candidates take two components. Candidates will be eligible for grades A* to G.

All candidates take:

Component 1

Coursework 50%

100 marks

Candidates research, develop and realise a project from one or more of the areas of study and should explore a theme.

There are two parts to the coursework:

- a portfolio and
- a final outcome.

Externally assessed

and:

Component 2 8 hours Externally Set Assignment 50%

100 marks

Candidates respond to one starting point set by Cambridge International. Candidates may produce work from the same areas of study as Component 1, but they do not have to.

There are two parts to the assignment:

- supporting studies and
- a final outcome, produced during a supervised test of 8 hours' total duration.

Externally assessed

Assessment objectives:

The assessment objectives (AOs) are:

AO1 Record: Record ideas, observations and insights relevant to intentions as work progresses

AO2 Explore: Explore and select appropriate resources, media, materials, techniques and processes

AO3 Develop: Develop ideas through investigation, demonstrating critical understanding

AO4 Present: Present a personal and coherent response that realizes intentions and demonstrates an understanding of visual language

Assessment objectives as a percentage of each component

Assessment objective	Weighting in components %		
	Component 1	Component 2	
AO1 Record	25	25	
AO2 Explore	25	25	
AO3 Develop	25	25	
AO4 Present	25	25	
Total	100	100	

Details of the assessment:

Component 1 Coursework

This is an internally set assignment which is marked by Cambridge International. There is no question paper for this component.

There are two parts to this component:

• a portfolio and

• a final outcome.

Candidates can choose to work in any of the areas of study and should explore a theme, producing a portfolio of work that leads to a resolved final outcome.

The portfolio should contain work which shows the research, exploration, development and evaluation relevant to the final outcome. The portfolio can be up to four sheets of A2. This applies to both the portfolio and the final outcome.

Component 2 Externally Set Assignment

This is an externally set assignment which is marked by Cambridge International. There is a question paper for this component.

There are two parts to this component:

supporting studies created during the preparation period

a final outcome, produced during a supervised test of 8 hours' total duration

Candidates can choose to work in any of the areas of study and should explore one starting point set by Cambridge International. Candidates produce their supporting studies during the preparation period, after receipt of the paper and before the supervised test.

Candidates should select supporting studies that show how they have:

recorded ideas and observations from first-hand studies, such as their own drawings and photography, and secondary imagery from books, magazines and the internet explored and experimented with different media, techniques and processes carried out relevant research into artists, designers and cultural influences related to their ideas selected, reviewed and refined their ideas as work progresses to plan and produce a personal and coherent final outcome.

Component 2 is marked against the assessment criteria at the end of this section. Cambridge International will assess both the supporting studies and the final outcome together and award a single mark out of 100.

Subject content:

The areas of study listed below provide a framework of art and design practice and indicate an approach that encourages exploration. Learners may use either traditional media or new media or a combination of both, providing all assessment objectives are met.

Candidates are encouraged to produce a variety of creative responses through exploration with a range of materials, processes and techniques.

Candidates are not expected to produce work from all the areas of study. They are, however, expected to: identify and research a particular aspect of art and design

carry out relevant exploration of media, materials, techniques and appropriate processes document and evaluate ideas and concepts against intentions as the work progresses develop these into a cohesive final outcome.

Painting and related media

In response to studies within this area, candidates are expected to demonstrate skills in either a representational or a descriptive manner, or they may be more imaginative and interpretative. The work should evolve through investigation and development by the candidate. Responses may be based on a directly observed starting point or subject, or they may be the candidate's personal response to a theme.

Candidates should work in one or more of the following:
Painting
Drawing
assemblage/collage
printmaking
mixed media.

Candidates learn to use a sketchbook to make visual and/or other appropriate research and develop their ideas. They also show knowledge of art and design from other cultures or history and relate it to their own studies.

Painting and drawing Candidates should be encouraged to work from direct observation and to explore the use of tone, colour and composition, materials and context. This can be shown through the use of processes and the use of media such as charcoal, pencil, pastels, acrylic, water colour, oil and inks.

Computer Science Code :0478

Overview

Computer science is the study of the foundational principles and practices of computation and computational thinking and their application in the design and development of computer systems. Learning computational thinking involves learning to program, that is to write computer code, because this is the means by which computational thinking is expressed.

Cambridge IGCSE Computer Science enables learners to develop an interest in computing and to gain confidence in computational thinking and programming. They develop their understanding of the main principles of problem-solving using computers.

Learners apply their understanding to develop computer-based solutions to problems using algorithms and a high-level programming language. They also develop a range of technical skills, as well as the ability to test effectively and to evaluate computing solutions. This qualification will help learners appreciate current and emerging computing technologies and the benefits of their use. They learn to recognise the ethical issues and potential risks when using computers.

Assessment and Weightage

	Paper 1	Paper 2
	ComputerSystems	Algorithms, Programming and Logic
Duration	1 hour 45 minutes	1 hour 45 minutes
Marks	75 marks	75 marks
Weightage	50%	50%
	Short-answer and structured questions	Short-answer and structured questions and a scenario-based question
	Questions will be based on Topics 1–6 of the subject content	Questions will be based on Topics 7–10 of the subject content
	All questions are compulsory	All questions are compulsory
	No calculators are permitted Externally assessed	No calculators are permitted Externally assessed

Careers

- GraphicDesigner
- ITManagers
- IT System Engineer
- Network Administrator
- IT Administratio

Examination Board & Specification: CIE IGCSE- 0417

Overview

Information Communication Technology is an applied subject and all candidates will require frequent access to computer and Internet facilities to develop their skills.

The syllabus encourages the investigation and study of Information Communication Technology in the variety of contexts, home, school, recreation, community, business and industry. In these contexts, the students will be given opportunities to acquire competence, capability and critical skills through the creation, implementation, use and evaluation of a range of information systems. Candidates from all backgrounds and both genders can develop their interest in, enjoyment of, and critical reflection about ICT as an integral part of modern society.

Assessment

The two assessment objectives in Information Technology are: Practical

Knowledge	e and understanding. Paper 1	Paper 2	Paper 3
	Theory	Document Production, Databases and Presentations	Spreadsheets and Website Authoring
Duration	1 hour 30 minutes	2 hours 15 minutes	2hours 15 minutes
Marks	80 marks	70 marks	70 marks
Weightage	40%	30%	30%
	Questions will be based on sections 1–21 of the subject content All questions are compulsory Externally assessed	This test assesses the practical skills needed to use the applications covered in sections 17, 18 and 19 of the subject content Candidates must demonstrate the practical skills relevant to sections 11–16 All tasks are compulsory Externally assessed	This test assesses the practical skills needed to use the applications covered in sections 20 and 21 of the subject content Candidates must demonstrate the practical skills relevant to sections 11– 16 All tasks are compulsory Externally assessed

Careers: Any career you choose, you will be able to apply what you have learnt in ICT. It can also lead you to being a Computer Professional.

Mo	ORAL E	DUCAT	FION-Curriculum
SL. NO.	Term	Pillar	Unit
	O. 1 1a		CM17 – Introduction to global ethics Unit Description In cycle 2 so far, students have been introduced to a number of approaches to morality and ethics, including virtue ethics, duty-based ethics and communitarian ethics. The scope of students' moral concern has been extended from the interpersonal to communities and to the level of the state. This unit deepens students' understanding of ethics and introduces them to key current issues in international and global ethics. The purpose of the unit is to trigger students' interest in reading and thinking about, and discussing, global ethical challenges and to prepare them for advanced study of two areas: ethics and the global economy in
		CHARACTER AND MORALITY	Grade 10, and peace and conflict studies in Grade 11. Learning outcomes Students will be able to do the following by the end of this unit: 1. Explain what is meant by 'ethics' and ethical enquiry in the context of international relations 2. Discuss the UAE's relations with other states and its role in international organisations and other global forums 3. Name the key ethical challenges for humanity and know how to find out more about them (using reliable sources on the Internet and elsewhere) 4. Outline ways in which people and collective actors (such as states, regional and international organisations) might go about alleviating a specific global ethical challenge.

IC17 – Financial awareness

Unit Description

The unit aims to prepare students for the complex financial decisions that they will make in the short, medium and long term, as well as developing an appreciation of the value of money. Students will develop intrapersonal skills through making connections between saving, budgeting, borrowing and spending. This will enable students to have greater confidence when making financial decisions in the future, to avoid debt and to make sensible decisions when investing and spending. In addition, students will be able to develop their entrepreneurial and decision-making skills through role play in which they will be asked to decide on how to invest, borrow, take risks and manage the costs of a 'business'.

Students will also develop interpersonal skills through exploring the value of money and how irresponsible money management by businesses, banks and consumers can have serious consequences, particularly for vulnerable groups. There will also be the opportunity to develop empathy for those who have financial hardship and to appreciate how philanthropy plays an important role in supporting good causes – how wealth can be a force for good.

Learning Outcomes

Students will be able to do the following by the end of this unit:

- 1. Make informed decisions about how to responsibly budget, save, invest and borrow, which can be evidenced through students being asked to budget responsibly over the course of a week in response to a range of scenarios
- 2. Develop their entrepreneurial skills through being asked to invest in a 'business' - produce a business plan and take financial decisions based on how the company is coping with economic and global pressures
- 3. Confidently discuss how to avoid financial complications through providing examples of financial mismanagement, greed, poor governance (banking crises, third world countries and corrupt leaders)
- 4. Demonstrate an appreciation of the value of money by articulating how lessfortunate groups and communities can be financially supported through improved financial management and philanthropy
- 5. Provide evidence that they have acted responsibly when using money, for example opening a bank account and using a budget that has a combination of necessities and luxuries.

NDIVIDUAL AND COMMUNITY

2	2a		CUS9 – What should be preserved and how
2	28	CIVIC STUDIES	 Unit Description The aim of this unit is to encourage schools and their students to participate in awareness and conservation programmes designed to safeguard: heritage sites and places (the tangible heritage); traditional literature, art and dance and other aspects of the intangible heritage; and the natural environment (the natural heritage).1 The unit includes: Concepts in the cultural and natural heritage, and why heritage is important The interrelationship between culture and nature; understanding a historic place, artefact or intangible element; visiting a heritage site; surveying and monitoring; formulating hypotheses; causes of decay; natural and human threats facing the cultural heritage Conservation and site management Socio-economic and tourism development; how cultural heritage contributes to economic development; interest groups Awareness and outreach; saving the endangered heritage; 'What can I do to preserve my heritage?' Learning Outcomes Students will be able to do the following by the end of this unit: Understand and describe the links between historical and natural environments and the necessity of preserving them for future generations Describe a selected site or aspect of the intangible heritage in terms of its historical, cultural and socio-economic value. Recognize the various threats to the cultural heritage. Understand and explain the various alternatives available for heritage conservation and its management, and the potential benefits and dangers of tourism Evaluate the role they can play in preserving their heritage and how they can contribute in a variety of ways
	2b	CIVIC STUDIES	CIS5 and CIS6 – Governments, authority and the judiciary Unit Description This is a double unit (12 weeks). It builds upon the work done in CIS4 (The growth of consultative governance in the UAE) by considering in greater detail the current organs of federal and local government in the UAE. Given the nature of the topic, there is a relatively high cognitive element in this unit. It includes the following: • The main principles embodied in the Constitution of the UAE • The federal system of government: the role and work of the Supreme Council, the President, the Vice-President, the Council of Ministers (Cabinet), the Federal National Council, the Federal Judiciary, federal ministries • Patterns of local government and legal codes • The relationship between federal and local government • Main political developments in the system of governance since the establishment of the Federation Learning Outcomes By the end of this unit, students will be able to: 1. Describe the main features, principal bodies, and activities of government and the judiciary within the UAE 2. Identify significant changes in the political system since the establishment of the Federation 3. Understand how the work of government seeks to implement the principles expressed in the Constitution 4. Discuss the relationship between the federal government of the UAE and the local system of government with which they are most familiar

3	3a		CIS5 and CIS6 – Governments, authority and the judiciary system in the UAE
			Unit Description This is a double unit (12 weeks). It builds upon the work done in CIS4 (The growth of consultative governance in the UAE) by considering in greater detail the current organs of federal and local government in the UAE. Given the nature of the topic, there is a relatively high cognitive element in this unit.
		CHARACTER AND MORLAITY	It includes the following: • The main principles embodied in the Constitution of the UAE • The federal system of government: the role and work of the Supreme Council, the President, the Vice-President, the Council of Ministers (Cabinet), the Federal National Council, the Federal Judiciary, federal ministries • Patterns of local government and legal codes • The relationship between federal and local government • Main political developments in the system of governance since the establishment of the Federation Learning Outcomes By the end of this unit, students will be able to:
		CH	Describe the main features, principal bodies, and activities of government and the judiciary within the UAE Identify significant changes in the political system since the establishment of the Federation Understand how the work of government seeks to implement the principles expressed in the Constitution Discuss the relationship between the federal government of the UAE and the local system of government with which they are most familiar
	3b	INDIVIDUAL AND COMMUNITY	CIS7 – Being an active citizen (part 1) Unit description 'A citizen is a person furnished with knowledge of public affairs, instilled with attitudes of civic virtue and equipped with skills to participate in the public arena.' Heater, D. (2004) Citizenship: The Civic Ideal in World History, Politics and Education. Manchester University Press. Learning outcomes Students will be able to do the following by the end of this unit: 1. Demonstrate a willingness to develop and apply the competencies necessary for effective civic engagement 2. Identify how they can make a positive difference to the local community and wider society in which they live 3. Demonstrate personal skills such as leadership and good teamwork

UAE Social Studies

YEAR 10 UAE SOCIAL STUDIES: Students will do UAE Social Studies in their English lessons (60 min) once in a week. They will assessed Termly by English teachers in their lessons. Following topics will be included in Year 10 UAE Social Studies.

National Identity	To understand one's social role starting with national identity.	To recognize some contemporary social issues and their causes.
Citizenship	To review situations and heroics from UAE history.	To learn biographies and heroics of figures who made the history of UAE.
Country, Rule and Law	To recognize the achievements of Sheikh Zayed bin Sultan - may Allah have mercy upon him	To review the efforts of Sheikh Zayed bin Sultan - may Allah have mercy upon him - at the international level.
Values and Morals	To highlight the role of the UAE in the field of peaceful co-existence. To highlight the endeavours of the country's leaders in providing ways for citizens to have a decent life.	To recognize the experience of UAE in the field of peaceful co-existence. To recognize the role of state institutions that support human rights.
Individual and Community	To realize role of UAE in the field of cultural dialog, accepting others and seeking to benefit them. To recognize basic principles and concepts associated with the media, leadership and social productivity.	To recognize the characteristics of UAE society, based on dialog and accepting others. To understand the concept of media and their importance in society To clarify that communication between different cultures is the way to mutual respect.

Edexcel GCSE (9-1) Statistics

The aims and objectives of this qualification are to enable students to develop statistical fluency and understanding through:

- > the use of statistical techniques in a variety of authentic investigations, using real-world data in contexts such as, but not limited to, populations, climate, sales etc.
- > identifying trends through carrying out appropriate calculations and data visualisation techniques
- > the application of statistical techniques across the curriculum, in subjects such as the sciences, social sciences, computing, geography, business and economics, and outside the classroom in the world in general
- > critically evaluating data, calculations and evaluations that would be commonly encountered in their studies and in everyday life
- > understanding how technology has enabled the collection, visualisation and analysis of large quantities of data to inform decision-making processes in public, commercial and academic sectors, including how technology can be used to generate diagrams and visualisations to represent data
- > understand ways that data can be organised, processed and presented, including statistical measures to compare data, understanding the advantages of using technology to automate processing
- > applying appropriate mathematical and statistical formulae, and building on prior knowledge.

Oualification at a glance

Content and assessment overview The Pearson Edexcel Level 1/Level 2 GCSE (9–1) in Statistics consists of two externally-examined papers. Students must complete all assessment in May/June in any single year, and students can only be entered for higher tier.

Component	Overview	Assessment
Paper 1 (*Paper code: 1ST0/1H) 50%	 Content overview The collection of data Processing, representing and analysing data Probability 	Written examination. 1hr 30mins 80 marks
Paper 2 (*Paper code: 1ST0/2H) 50%	Content overview The collection of data Processing, representing and analysing data Probability	Written examination. ♦ 1hr 30mins ♦ 80 marks

Assessment Objectives

Students	must	% in GCSE
<u>AO1</u>	Demonstrate knowledge and understanding, using appropriate terminology and notation, of standard statistical techniques used to: • collect and represent information • calculate summary statistics and probabilities	55
AO2	Interpret statistical information and results in context and reason statistically to draw conclusions Where questions/tasks targeting this Assessment Objective will also credit students for their ability to 'demonstrate knowledge and understanding of standard statistical techniques (AO1) and/or to 'assess the appropriateness of statistical methodologies and the conclusions drawn through the application of the statistical enquiry cycle' (AO3), an appropriate proportion of the marks for the question/task must be attributed to the corresponding Assessment Objective(s).	25
AO3	Assess the appropriateness of statistical methodologies and the conclusions drawn through the application of the statistical enquiry cycle Where questions/tasks targeting this Assessment Objective will also credit students for their ability to 'demonstrate knowledge and understanding of standard statistical techniques' (AO1) and/or to 'interpret statistical information and results in context and reason statistically to draw conclusions' (AO2), an appropriate proportion of the marks for the question/task must be attributed to the corresponding Assessment Objective(s).	20
